

COVID-19 Update.

Dust Away Pros, is closely monitoring COVID-19 (coronavirus) and its impact in our community. The health and safety of our customers and personnel is our highest priority during this time. While we cannot control the severity or unpredictability of this virus, we can take preventive measures to limit the spread and impact of COVID-19. We are currently acting with prudence in our day-to-day operation with basic preventative safety measures following the guidance set forth by the U.S. Federal Government, Centers for Disease Control (CDC) and other health agencies, including:

- Cleaning hands with soap often, for at least 20 seconds.
- Using an alcohol-based hand sanitizer when soap and water are not available.
- Keeping a safe distance (6 feet) from people who are sneezing/ coughing.
- Cleaning frequently touched surfaces.
- Covering cough or sneeze with a tissue, then throwing tissue in the trash.
- Staying home when sick.
- Disinfecting our equipment with an electrostatic fogger.
- Checking the temperature of our personnel before starting work.

We encourage our customers to let us know in advance of an appointment if there are any concerns or they would like us to take special precautions. We will continue to closely monitor the situation surrounding the COVID-19 coronavirus and act accordingly.
